Do you agree with our preferred option or do you support another option?

Drinking water meters: Don't install meters

Let us know why: Meters unreliable, limited service life. More important to address lack of supply now, not in 3-5 years time when it wont be your problem. Don't trust your data. Don't trust council integrity on this issue.

Elderly Persons Housing: Self-sustaining in 2 years - our preferred option

Let us know why: Right thing to do by our elderly community

What do you think about our plans for our other projects and activities?: I think your representation of roading and waste reduction is poor. Who fact checked the consultation document? " Graded 8.7kms of unsealed roads" Thats a mornings work. Error or nothing done, you decide, I have. "diverted 6.3 tonnes of waste into recycling (one third of all waste handled) each year". Does that mean 18 tonnes of waste is handled each year. I don't think so!
