

Thank you. Apologies for that.

I support 'Don't install meters', my preferred choice.

Kind regards
Grahame

Subject: Draft Long-Term Plan Submissions

Good morning Grahame,

We have received both of your submissions on our draft Long-Term Plan 2021-31, thank you very much for your feedback.

Your two submissions (attached) support different options for drinking water meters – just wanting to clarify which option you would like to be recorded as supporting?

Kind regards,
Strategy & Policy Team
