Do you think we should decrease our day-to-day levels of service to reduce the average rate increase? :	Yes
Why / Why not?:	Cost of living is increasing across the board, so people are having to go without luxuries and extras. Council should also be doing the same, doing the necessary work and reducing the extras and nice to haves.
If so, what should we do less of?:	1. East Street fairy lights - power prices are going up, these are a nice to have and should be turned off to reduce additional spending 2. Economic Development - as a ratepayer I see no value for this excessive spend, why does this area need \$800,000 a year? It should be scaled back significantly. 3. Lawn mowing and planting - both of these areas should be scaled back
