

Your Details	
First Name:	Sandra
Last Name:	McLintock
1	
Do you think we should decrease our day-to-day levels of service to reduce the average rate increase? :	Yes
Why / Why not?:	I do think some cuts are able to be made - we can all make cuts to reduce costs BUT what you could supply is a list of what you do offer so we can say where we think cuts could be made. The new ADC building I see as unnecessary and that money could have been put to better use right now. Having a new building is ok but the extravagance of what you decided to build is outrageous. We are not Sydney or Auckland. We are a small rural town.
If so, what should we do less of?:	
2	
Do you agree with using \$1.7 million from our forestry reserve to pay for major roading repairs?:	Yes
Why / why not?:	The roading around town and on rural roads is something to be ashamed of to be honest. The potholes are dangerous and all the fuss which is made about health and safety and then something the District Council is control of is one of the worst hazards around. It is a topical conversation among many and we all agreethe patch up jobs do not work.
