

Submission to Ashburton District Council

On Long Term Plan re:

Location of the second Ashburton Bridge.

I would like you to know that I do not support the Charmers Ave sight for the new bridge. It is not taking into account the density of the schools, early learning centres. It would be very invasive in this area.

I support the West Street for the new bridge. It is the continuation of the State Highway. We really need to have the town and Local business in sight for passing traffic.

The NZTA will pay for all roading and the bridge, lets get going.

When is the next meeting to talk about the bridge sight.
