Drinking water meters: Don't install meters

Elderly Persons Housing: Self sustaining in 7 years

Let us know why: Longer term will allow this to be financially achievable

What do you think about our plans for our other projects and activities?: The fact that you are raising your costs in the light of every business in NZ reducing their running costs, is just not acceptable. Please review your running costs and make savings where possible so this percentage is reduced, not increased! Re-look at your population calculation for Methven! it is just not right or precise. No to large scale projects - in this season of everyone tightening their belts, please focus on necessities and not 'extras'.
