Drinking water meters

- Spread over 3 years – our preferred option
- All in 1 year
- Don't install meters

Let us know why

While I realise why these would be beneficial I have concerns that after 3 years the Council will charge water rates. I look at Rolleston where water rates are charged and the residents sections are not watered. They look terrible with dry brown lawns and unwatered gardens. Ashburton is lush in comparison and I would hate to see that change.

Elderly Persons Housing

- Self-sustaining in 2 years – our preferred option
- Self-sustaining in 7 years
- Status quo – inflationary rent increases + general rate

Let us know why

I believe the rent increases are reasonable and still very much cheaper than market rents.

What do you think about our plans for our other projects and activities? Any other comments?

I think any upgrades to the infrastructure are necessary and should be done as we can afford them.
