

**Name**            Jessica McConnell

**Do you wish to speak in support of your submission at the hearing?** No

**Do you agree with our preferred option or do you support another option?**

**Drinking water meters**

- Spread over 3 years – our preferred option
- All in 1 year
- Don't install meters

**Let us know why**

What's the purpose or justification? We're on water restrictions 6+months of the year anyway. It's not the domestic population that's over using water, it's the council facilities unable to keep up with demand. Youll support tapping into the provincial growth fund but won't invest yourselves in the growing town.

**Elderly Persons Housing**

- Self-sustaining in 2 years – our preferred option
- Self-sustaining in 7 years
- Status quo – inflationary rent increases + general rate

**Let us know why**

Would prefer to support elderly housing than your bollocks 'admin fee increases'

**What do you think about our plans for our other projects and activities? Any other comments?**

Rates increase of 14% in Methven is absolutely criminal. If you want to penalise & alienate the local community, then by all means, box on! Don't let the door in your brand new buildings hit you on the way out at the next election.
