

**Submission to Ashburton District Council
on Long Term Plan re: location of second
Ashburton Bridge**

I have lived in Mid Canterbury all my life and

I certainly do not agree to the 2nd Bridge going
across at the end of Chalmers Ave. There doesn't seem to be

any ideas on how the road link onto Chalmers Ave is going to be

or what any exit off Yvachans Rd. onto the Main South Rd.

why have these matters not been clearly addressed. I believe

the traffic lights being proposed in Linwood and Walnut Ave

will be a waste of money until the 2nd bridge location

has been settled completely.

This diversion of traffic through Linwood, Ashburton is

totally a NZTA issue and should be fully funded by them and
not the ADC rate payers.

A. Benley Bridge should be another option, as with a Ring Road
that will take trucks out of the equation in the ideas.

The safety of elderly, children and safety for everyone should

be very seriously considered. The Chalmers Ave idea, Yvachans Rd

is nothing short of short sightedness & Bull Shit. The local people

should have been listened to years ago as they are the folk that
are going to be the ones living this change to our town.

.....
